# BIG MENACE

Coming from a small town in Louisiana I've seen and been through a lot. Music has become my outlet, an escape. I started doing music at the age of 15 as a way to speak my mind and reach others. I use my music as a way to get my story out, and who better to tell my story than me?

I consider myself an artist, not just a rapper cuz I try to make you FEEL my words, not just hear them. I have a few things that motivate me to stick with my music despite what others may say...God, of course, my kids, and let's just be real; we all want and need money. I'm signed to my record label, MaJic Touch Productions, who believes in me and how far I can go. With all that said, check out the music and let me paint a picture for you.

# JMACK THA HUSTLER

JMack "Tha Hustler" (CEO of MaJic Touch Productions) is an artist, music producer and audio engineer from Alexandria, LA who loves creating hip hop and R&B feel good music. Having a love for music at a young age, the thought of having his own studio fueled the desire to create his own music. Starting out as an MC, not being able to find the perfect beat was difficult. Getting to a local studio was also difficult due to high prices and location which left only one option...build his own studio and learn how to produce and engineer his own music

Today JMack is creating and releasing his own music through his company, MaJic Touch Productions. While not only producing his own music, he also offers services in the form of beat production and audio engineering to other independent artists to create good music for all of the world to hear. His dream is to one day have a production company that the world would recognize. He wants to sign and help other artists to create and release their music in the way they envision it to be heard. In the mean time, JMack "Tha Hustler" will continue to work hard, creating and releasing feel good music the world can vibe to.

# MAJIC TOUCH PRODUCTIONS

Based out of Alexandria LA, MaJic Touch Productions is a label that was started as way to give a voice to the voiceless. We believe in making music with a personality and adding feeling to the music. We believe in trying to give the world music that paints a picture you can see in your mind and creating sounds you can feel in your soul.

We, at MaJic Touch Productions want to create music that the world can "vibe to." As a label, we also believe an artist should be able to make THEIR music THEIR way, without a record label controlling their vision. We work as a team, a family, with everyone supporting everyone. This makes us the perfect label for those whose creative opinions have been tossed on the back burner. Let us be your voice.
